

Contracting Division

The Omaha District can provide a range of contract support to its customers. Our large contracting capability can be tailored to fit specific needs in a timely manner. We can contract for supplies, services, construction, architect-engineering, and hazardous, toxic, and radioactive waste (HTRW) remediation. Most importantly, we are staffed with highly-qualified professionals who are motivated and innovative.

Mission

The mission of Contracting Division is to provide the highest quality contracting services for the Omaha District and its customers.
